CNC Milling Machine

Hot Air Welding

**Fluid Sealing Products, Inc. is a specialty company. Our specialty is machining and fabrication of engineering thermoplastics. We have over 20 years of experience machining and fabricating plastics. Our machines are state of the art CNC equipment and our people are highly experienced. Our welders all have a minimum of five years experience and some have as many as twenty. We have a 6000 square foot, air conditioned facility in Pasadena, Texas devoted entirely to plastics.**

**We can combine standard fabricating methods with several proprietary techniques that are unique to us to solve many of your fabrication problems.**

**We can provide you with working drawings of your project or we can work from yours.**
